

## REPAIR NOTE ENDCONSUMER

Please ensure that you only return the goods together with this repair note. All returns without this document cannot be processed.

Should you have a complaint within the context of the warranty obligations, this must be complained to the seller of the product (specialist dealer). In this case, please send the model including a copy of your invoice to the seller. If the model is sent directly to BRAWA, there is no right of warranty. If the purchase was made in the BRAWA factory sale, please include a copy of the invoice.

We generally send a cost estimate for repairs from EUR 60.00. This must be confirmed within 14 days or the item will be returned to you unrepaired.

Deliveries and pick-ups of repairs outside the warranty obligation are possible from Monday to Friday between 08:00 and 12:00 at our head office in Remshalden (Entrance Administration, Uferstr. 26). Please note that deliveries without a completed repair certificate cannot be accepted.
